## Work Experience

### Freelance Web Designer

02/2020 - 03/2022

- Developed the layout and visual identity of a company that wanted to create a business portal to communicate with product buyers and suppliers using my knowledge of Figma, Html, CSS, and JavaScript.
- Developed and implemented new design concepts on existing websites.
- Performed website migrations from the Wix platform to WordPress.
- Maintained and optimized websites using WordPress.

### B4S Company

#### Freelance Web Designer

03/2022 - 08/2023

- Developed landing pages using WordPress and Elementor.
- Built institutional website design using Figma, WordPress, and Elementor.
- Developed wireframes using Figma and Adobe XD.
